

DEFI N°2 – CM1

1. Le pavage

sur 10 points

Recouvre entièrement ce quadrillage avec des petits rectangles de 5 carreaux sur 3 carreaux.

Tu peux tracer les rectangles sur le quadrillage ou coller les rectangles que l'on te donnera.

22

15

2. Le zoo

sur 10 points

Le graphique ci-dessous représente le nombre d'animaux par espèce.

Il y a 4 espèces d'animaux dans le zoo : les singes, les ours, les éléphants et les girafes.

On sait que :

- il y a 26 ours ;
- les éléphants sont les moins nombreux ;
- Il y a moins d'ours que de singes, mais il y en a plus que de girafes.

.....
--------------	--------------	--------------	--------------

Écris à quoi correspond chaque étiquette et le nombre d'animaux de chaque espèce.

AIDES POSSIBLES & MANIPULATION

Problème 1 : rectangles à découper, placer et déplacer
