

## The Easycorp XXXXX

Its name is the Easycorp. It has a pointed horn and a long tail to protect itself, and to attack its enemies. It is really gigantic. Its body color is green and its eyes are blue. It is herbivorous because it eats grass and leaves. It is also herbivorous because all the animals around it are toxic. It is very dangerous because it protects its babies. It lives in French and Norwegian mountains. It can paralyse its prey and it can make earthquakes with its horn. The Easycorp is heavier than the Nandu but it is less fast than the Grizzly.
