

The Dibly XXXX

Its name is the Dibly. Its head is shaped like a shell. It has seven green hooves, three powerful orange wings, two stinging tentacles and long sharp claws. The Dibly is really big and monstrous. It lives in the desert in Egypt. It is sanguivorous because it drinks human blood. It is dreadful because it can paralyse its prey and read people's minds. The Dibly is heavier than the Nundu. This monster is scarier than the Niffer.

The Diddy
