

## THE GOBLO

XX

Its name is The Goblo.

It lives in the mountains, in Alaska.

The Goblo is very tall, it has a long tail and a horn, two tentacles and four hooves.

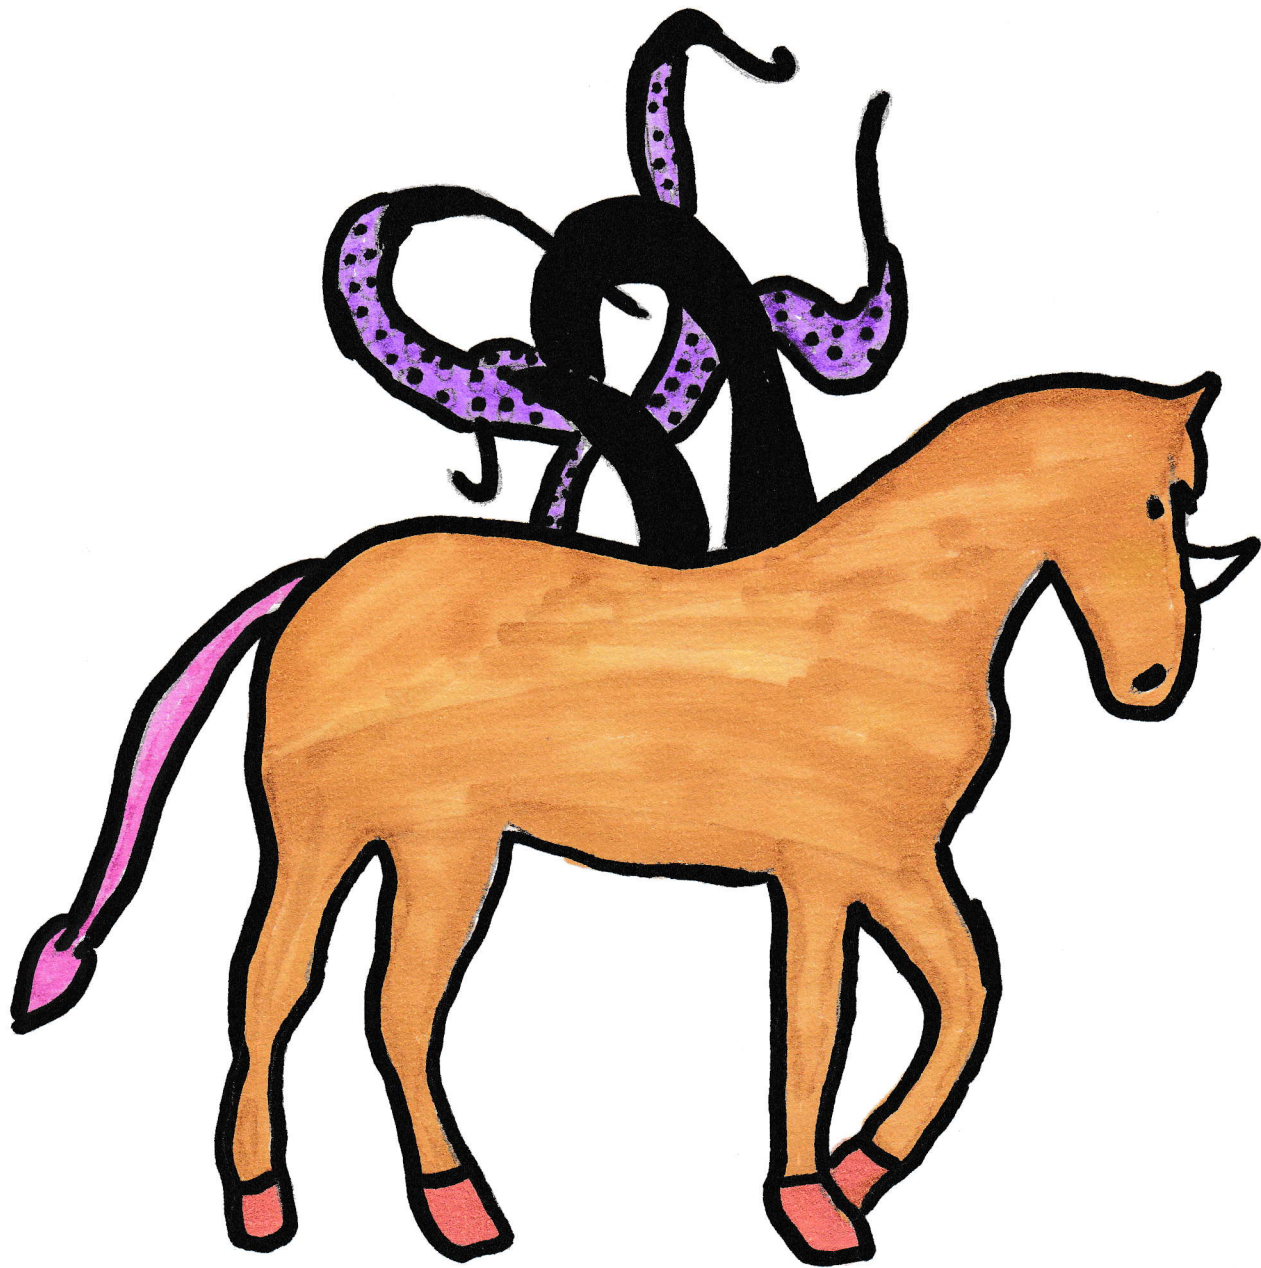

Its tail is pink and its hooves are brown.

It is carnivorous because, it eats meat.

Its tentacles can cure maladies.

It can travel all over the world.

It is more beautiful than the Demiguise and less dangerous than the Bundu because it is friendly.
