

XXXX The Dragonturtle

The Dragonturtle has a heavy shell and tiny hooves. It has a very long tail and two big eyes. It is really small. Its tail is blue and its shell is purple. It lives in the Amazon rainforest in South America. It is herbivorous because it eats grass and leaves. It can spit fire and grow bigger. It is less smart than the Nipper and it is uglier than the Demiguise. It is very dangerous because it is really aggressive.
