

THE MANEVOROUSXXXX

The name of this fantastic beast is the Manevorous

It has a long gold mane, sharp talons, two tails, and monstrous fangs. This creature is very big. Its tail is black and gold, and its eyes are extremely dark.

It lives in the mountains, in Austria, Europe.

This beast is carnivorous because it eats deer and pheasants more rarely.

It can become invisible and it can jump extremely fast.

The Manevorous is heavier than the Nundu and it is more gigantic than the Demiguise.

It is very dangerous and aggressive because it is really protective of its babies
