

THE SINISTER XXX

Its name is the Sinister. It has long blue tentacles. It has sharp fangs and purple talons.

It is not very tall. Its skin is grey.

It lives in the Amazon forests of Brazil.

It is carnivorous because it eats meat.

It can paralyse its prey and it can see the future. The Sinister is only aggressive

when you approach its eggs. The Sinister

is more beautiful than the Demiguise. It

is less dangerous than the Acromantula.

The Sinister looks like the Thunderbird.

THE SINISTER XX
