

THE DEATH XXXX

Its name is the Death.

It has very wide tentacles and long sharp fangs. It is extremely tall and enormous. It has abundant fur and small hooves. It has a grey snout and black whiskers.

It lives in huge forests, in Guyana and Brazil. It is frugivorous because

it eats fruit. It can see in the dark and it can inject toxins into its enemies.

It can also tell the future. It is less smart than the Niffler and it is bigger than the Nundu. It is dangerous because it is extremely toxic and aggressive.
