

## the SKAKOUSS

XXX

Its name is the SKAKOUSS. It <sup>has</sup> feon purple and orange wings, a long snout, two tentacles. Its venom is deadly. It is very tall and thin. It lives in Belgium in the mountains. It is insectivorous because it eats insects. It has two great capacities: it can stay under water and it can change color. The skakouss is heavier than the Nonda. It is worse than the Demiguise. It is dangerous, even more so when it changes color.

SKAKOUSS
