

Two friends

By Benjamin and Johan

nce upon a time, in a little village, there

were two friends, Benjamin and Johan. They were very poor so they needed to find food in the woods.

One day, after two hours, they found lots of strawberries in a garden. They didn't know that it was a wizard's garden. The wizard saw them after they had eaten every strawberries. He was very angry and, to punish them, he transformed Benjamin into a frog and Johan into a pig. Nevertheless, the two friends could speak.

After their transformation, they ran to escape from the wizard. They walked for a very long time. After five hours, they finally found the house of their friend, Humpty Dumpty. First he was scared but they spoke and he recognized them. He invited them inside his house and gave them a sword and a map. He told them that a witch had a potion which could transform them back into humans.

Benjamin and johan started to take the road following the instructions which were on the map. They entered a strange wood. Benjamin was scared because he heard strange and terrifying sounds. Suddenly ghosts and gobelins came out of a bush. They attacked Benjamin but Johan defended him with the sword and killed every monster.

Ten minutes later, they saw a giant who was roaring. He attacked Benjamin with a big axe. Benjamin couldn't fight back because he didn't have any weapon so he skirted the giant's blows and Johan cut the giant's arm with the

sword. Then he cut his head.

Finally, they found the witch's potion and they were real people again. Next to the potion, there was a chest which was full of gold. So they took the chest back to their home and they lived happily ever after.

The end.
