

MY BEST MOMENTS ON THE TRIP !!

Chabert Charlotte 1G4

•Cambridge

We went there to explore the town and see the university and its surroundings.

In that picture we were next to the school, and I loved the atmosphere of that moment, there was boats and bridges inspired from Venice!

•Canterbury

This place is known for its cathedral, which was magnificent, the inside was impressive, we were fascinated

I really liked it, everything was calm and the architecture was majestic

•Rochester

In Rochester we were supposed to follow some instructions and complete a paper, the place was kind of dark and spooky because of the weather and the halloween decorations, I really liked that.

•London

That day we went to see Charles Dickens's houses and some places related to his life.

And after that we had some free time and went to the Victoria and Albert museum.

The architecture was incredible and I enjoyed London a lot because of all the things there were to do and the dynamics of the city
