

# CANTERBURY

My favorite moment here was when we discovered that this city was full of small magical shops everywhere and we bought sushi to eat in a beautiful old bar in Canterbury with my friends. We laughed a lot and took lots of photos. It was a very good time. We also went shopping, it was really nice.

# LONDON

My favorite time in London was the first day when we arrived. Walking at night in London is my favorite thing of my whole life. This city is beautiful. But in addition, we arrived at Buckingham Palace in time to see the pink sky and the sun set. It was beautiful and the amvian was incredible.
