

Is there solution ?

▲ Living on the moon

Because of overpopulation, we may have to leave the Earth and settle on the Moon or on other planets. Which planet will you prefer to live on ?

▼ Cities underwater

Scientists imagine we will be able to build and live in bubble cities under the sea to optimize space and have a solution if flooding becomes widespread.

◀ Travelling by drones

Have you ever imagine travelling with your bedroom and all your clothes ?

In the future, drones will take us on vacation wherever we want !
