

# WE HAVE PROBLEMS !

## ▲ POLLUTION

With more cars and industries, carbon dioxide emissions have become harmful to our health. Plastic pollution endangers marine life. If nothing is done, a lot of species will disappear.

## ▼ OVERPOPULATION

Overpopulation is a real problem that we have to take seriously since the urban population continues to grow. In 2050, more than 70% of the population will live in cities !

## ◀ URBAN SPRAWL

Green areas are receding and cities are expanding. The risk of flooding due to soil waterproofing will be more important in the future. Our lives are at risk !
